

# PRODUCT CATALOG

# WELCOME

To the Mobility Revolution.....

## **DON'T LET A MOBILITY ISSUE STOP YOU FROM DOING WHAT YOU LOVE**

Are you finding yourself stuck at home, not being able to go out and meet with family and friends at your favorite gathering places such as restaurants, malls, parks? Those days are over.

## **BEGIN TO LIVE A MORE ENJOYABLE LIFESTYLE**

The EZ Lite Cruiser is an FDA Cleared battery powered wheelchair that can help you get around. It folds to a compact size that fits virtually in any vehicle such as a car, SUV, van, truck, boat, airplane. Its light weight frame can easily be lifted and stored for travel. With optional removable motors, the weight can be further reduced making lifting the device easy for many users or their caregivers.

## **PRODUCTS THAT INCORPORATE THE LATEST TECHNOLOGIES**

We use the latest advancements in electric motors by using state of the art brushless hub motors that require little to no maintenance in their lifetime. They are powered by a high quality lithium ion battery, that is safe for air travel and sea cruises. The controller system is an easy to use point and go navigational throttle, simple enough for even a child to use.

## **JOIN THE THOUSANDS OF OTHERS WHO HAVE REGAINED THEIR INDEPENDENCE & EXPERIENCE THE THINGS YOU'VE BEEN MISSING!**

In this catalog, we will outline the features available, explain how to select the right device for your height & weight, and for your intended usage. Lastly we will explain how to customize one with optional features and accessories to make it the best portable mobility aid for your lifestyle.

**THANKS YOU FOR YOUR CONSIDERATION IN CHOOSING ONE OF OUR FANTASTIC EZ LITE CRUISER® DEVICES FOR YOUR MOBILITY NEEDS. WE ARE A LOS ANGELES, CALIFORNIA BASED BUSINESS.**

# SO MANY REASONS TO GET YOURSELF ONE

Our one of a kind Frame Designs make the Folding & Unfolding very Quick and Easy, very Light weight, and best of all it makes the device very Portable for travel.

The frames are made of Extremely Durable aluminum alloy, and various sizes are available for users up to 330 lbs.

With our advanced lithium ion batteries, you can enjoy driving distances up to 30 miles, depending on your configuration.

## GREAT FEATURES FOR COMFORT

### **ADJUSTABLE HEIGHT ARM RESTS & FOOT REST HEIGHT**

Allows you to change the height of the arm rests to a desired comfort position based on your torso height. You're also able to adjust the height of the foot rest -- from the edge of the seat to the foot rest plate.

### **ADJUSTABLE JOYSTICK POSITION**

Not every user is the same. This feature allows you to adjust the position of the joystick based on your arm length and reach.

### **BACK SUPPORT RECLINES**

This unique and patented feature allows you to recline in comfort in 5 preset positions.

### **OPTIONAL EXTENDED FOOT REST**

For taller users and those who need to stretch their legs, this allows you to position the foot rest plate further away for a more comfortable position of your legs.

### **OPTIONAL ADJUSTABLE HEIGHT FOOT REST**

For shorter and/or taller users, this feature can help you bring the foot rest plate up or down more based on the length of your legs.

### **USE YOUR OWN PREFERRED SEAT CUSHION**

Have a preferred cushion? Remove ours and use yours for a more comfortable seat that you're used to from another mobility device.

# UNIQUELY CRAFTED

## RECLINE FEATURE

All of our Deluxe Models have a unique and patented feature that allows you to recline the back in 5 preset positions, at 10 degrees each notch. Starts at a 100 degree angle, up to 140.

# AMAZING & PATENTED

## QUICK RELEASE MOTORS

Another patented feature that our Deluxe Models offer is the ability to split them up into 3 parts, for easier lifting.

# AIRLINE FRIENDLY

You may bring your EZ Lite Cruiser with you when you Travel, whether domestically, or abroad. It is Airline Approved when it is equipped with our 10 Ah capacity battery, which has a 240 Watt Hour rating. On our website, we've compiled a list of the policies for most major airlines, which confirm it is allowed. For a full list of airlines & their policies, visit <http://www.ezlitecruiser.com/airtravel>

# INCLINE ABILITY

We've created a table to help you better understand the ability of the EZ Lite Cruiser, and more importantly, what is safe for your driving on inclines and declines (slopes.) The values listed below are in a % slope. The rise of the ramp is in the left most column, and the remaining columns show the length of the ramp needed to obtain the slope in the intersecting row & column.

You can use this chart as a guide to see what length ramp you need to get up a predetermined height. Measure the height of the threshold you're applying the ramp to, and see what length ramp would be needed to make it a safe slope.

	12"	24"	36"	48"	60"	72"	84"

# UNDERSTANDING

## THE FIT OF OUR MODELS

### SEATING AREA DIMENSIONS

When sizing the user for the right fit, consider the seating area in terms of how wide the cushion is, and how much room you have between the arm rests. Then, consider the height of the back support, which will be comfortable depending on the users upper body and ultimately their height.

	STANDARD MODEL	DELUXE SLIM	DELUXE REGULAR	DELUXE WIDE
SEAT WIDTH	15.25"	17.5"	17.5"	17.5"
SEAT DEPTH	16.75"	17"	17"	17"
WIDTH BETWEEN ARM RESTS	16.5"	17"	19"	22"
BACK HEIGHT	12.5"	17.5"	17.5"	17.5"

FULL SPECIFICATIONS AVAILABLE ON PAGE 28

### FOOT REST PLACEMENT

When picking a model, also consider the position of the foot rest for comfortable sitting. Notice on the Standard Model the foot rest is close to the frame. With the Deluxe Models, the default foot rest is out farther and an open area. Plus, you have an option to extend the foot rest plate out farther, which is helpful for taller users or those that need to stretch their legs. All Deluxe Models, (Slim, Regular and Wide) have the same foot rest design and optional extension available.

Standard Model

Deluxe Models with Default Foot Rest

Deluxe Models with Extended Foot Rest

# CHOOSING

## THE RIGHT SIZE WHEELS

The right size wheel makes all the difference in performance and comfort. All of our models utilize different wheel size combinations for the best performance and what the frame design allows. This section explains what to consider and what you can expect with each option.

For the Standard Model, only the 8" rear wheels are an option. This device, while it can be used outdoors, is typically meant for more indoor settings, such as in your home, a mall, a well paved park or recreational area. Because of that fact, and because we meant for this device to have a small foot print, we only use 8" rear wheels.

With the Deluxe Models, we have more versatility with the frame design, and being that they are a bigger machine in general, we make them with the option of 3 different wheel sizes.

### **12" REAR WHEELS - RUGGED TREADS FOR OUTDOOR USE**

Our best selling wheel size option, made for those who have a need to get out of their home and in to more rugged outdoor areas where a well paved path is not always an option. Wood chips, gravel, dirt paths with some small rocks, and city sidewalks and street crossing where there may be an occasional small pot hole.

What you gain with the larger wheel size is a smoother ride, and you won't need to replace them as often with outdoor use on asphalt and concrete.. What you lose with it is that you'll have a slightly larger turning radius. While that can present a problem in smaller homes and tighter indoor areas, it can typically be counteracted with K-turns.

### **10" REAR WHEELS - VERSATILE INDOORS AND OUTDOORS**

Another very popular option is the 10" wheel, made for those who typically use their device more in an outdoor setting than indoors, but may have a smaller home with tighter areas, or don't find themselves doing any rugged driving and keeping to well paved areas. With these 10" wheels, you get the added benefit of more wheel material for a longer lasting wheel, without losing as much turning radius.

### **8" REAR WHEELS - SMALL FOOT PRINT FOR INDOOR USE**

Surprisingly, even with the more comfortable Deluxe models available, many users opt for the smaller Standard Model when their height & weight allows it. With our Deluxe models, the 8" wheels are also a popular choice due to the small foot print they allow when the use of the device is primarily in an indoor setting such as a home, assisted living facility, mall or store and other well paved areas.

# STANDARD MODEL

Our most basic device, the EZ Lite Cruiser<sup>®</sup> Standard Model, is composed of a very durable lightweight aluminum alloy, giving it a total weight of only 44 pounds (w/o battery), but being capable of handling passengers weighing up to 264 pounds. This updated design has rubber 8" rear wheels, for superb traction, and 250 Watt Brushless HUB motors to power them.

You will be amazed at how effortless it is to quickly and easily fold this chair to a compact size.... Unfolding is just as easy! Once you sit on the EZ Lite Cruiser<sup>®</sup> you will know it is extremely durable and you will enjoy every minute of driving it.

Your purchase of our Standard Model includes everything you need to use it: A rechargeable battery, a battery charger & joystick. Simply select your Battery Size when ordering.

Please Note: 10 Ah Battery is Airline Friendly, however 15 Ah Battery is Not.

## STANDARD MODEL BATTERY OPTION

With 10 Ah  
Battery  
**\$2595**

With 15 Ah  
Battery  
**\$2775**

### SELECT YOUR CHOICE OF BATTERY SIZE

When customizing your Standard Model, you will simply Select the size (capacity) of a Battery. The 10 Ah Battery (left/above) is Airline Friendly. See Page 8 about airline travel. You have the option of a larger capacity 15 Ah Battery (right/above), for 50% more driving distance, however, it is not airline approved. A secondary (spare) 10 Ah Battery can be added to the Standard Model for double driving distance & most airlines allow a spare 10 Ah battery on board in your carry on. The battery charger is included in the purchase of the device.

# DELUXE MODEL CUSTOMIZATION

This section explains the possible configuration and optional features available for all Deluxe Models. These choices are specific to your particular needs and wants in your personal mobility aid.

## #1: BATTERY SIZE

10 Ah  
Battery  
+ \$0.00

15 Ah  
Battery  
+ \$180.00

### SELECT YOUR CHOICE OF BATTERY SIZE

Your first option when customizing any Deluxe Model is the size (capacity) of a Battery for it. The base models come with a 10 Ah Battery (left/above) and this size battery is Airline Friendly. For more information See Page 8 about airline travel. You have the option of a larger capacity 15 Ah Battery (right/above), for 50% more driving distance, however the **15 Ah is not airline approved**.

A second 10 Ah Battery or 15 Ah Battery can be added to the Deluxe Models for double driving distance. Please note however, that the Deluxe Slim frame can only accommodate two 10 Ah batteries, but not two 15 Ah Batteries. Only the Deluxe Regular and Wide can accommodate two 15 Ah Batteries. Most airlines allow a spare battery of 10 Ah size on board with you. A regular battery charger is included in the purchase of an EZ Lite Cruiser device, and you can upgrade to a speedy charger that can recharge your battery at 2.5x the speed, for \$20.00.

## #3: CHARGER TYPE

Regular + \$0.00

Speedy + \$20.00

### SELECT YOUR CHOICE OF CHARGER

The 2 Amp charger is included in the base price of an EZ Lite Cruiser. You can upgrade to the Speedy (5 Amp) Charger for \$20.00. The 10 Ah battery can be recharged from empty to full in 5 Hours with Regular Charger, or 2 Hours with the Speedy Charger. The 15 Ah battery can be recharged from empty to full in 7.5 Hours with the Regular Charger, or 3 Hours with the Speedy Charger. *Charging times vary, depends on the level of charge still in the battery.*

## #3: JOYSTICK SIDE

### RIGHT HANDED OR LEFT HANDED USE

Select whether we will mount the Joystick on the left hand or right hand side. The side can always be changed from left to right or right to left in the future, with just a few simple steps.

## #4: SEAT BELT

Basic  
+ \$0.00

Premium  
+ \$39.95

### YOUR CHOICE OF SEAT BELT

We have two options for a seat belt. A basic seat belt (left/above) is included at no cost. A more robust Premium seat belt that mounts to the frame is available as an optional upgrade for a cost of \$39.95.

## #5: FOOT REST

### SELECT WHETHER TO EXTEND THE FOOT REST

The default configuration of the foot rest plate is shown on the Deluxe Models pictured on the previous pages. For an additional cost of \$49.95, it can be extended to 4.5" further out, which is a more comfortable seating position of the legs for taller users (5'10"+) or those that need to keep their legs at an extended position.

Extended  
+ \$49.95

### Travel Bag

\$129.95

Cover your device for travel with this handy protective Travel Bag. Surrounds your EZ Lite Cruiser and protects it from scratches and the elements. Not necessary when traveling by car, but great for protection during air travel.

### Cup Holder

\$18.95

Take your favorite beverage with you wherever you go with this easy to use Cup Holder. Holds most common size water bottles, coffee mugs & hot or cold beverages alike. Mounts easily and keeps your beverage handy. Use with beverages with lids.

### Basket

\$59.95

When you need to carry some extra items with you, place them in this quickly removable carrying Basket. Perfectly paired for use when shopping. Store items in the basket, unload at the counter & reload your grocery bag. Works like a charm.

### Side Arm Pouch

\$39.95

A convenient and perfectly fitted holster on the arm rests, this Side Arm Pouch allows you to store you personal effects such as wallet, keys, cell phone and other valuables, right within your reach. A must have for every user.

### Headrest (Premium)

\$179.95

Made specifically for those requiring additional support in the head and neck. Our Premium Headrest is adjustable in many ways for height, depth and tilt. Easy to quickly remove with a simple thumb screw. Works on any model.

### Headrest (Basic)

\$89.95

A simplified headrest for those who would like to have some added support when they need it. This headrest mounts semi-permanently and stays on the device when it folds down. This headrest is only compatible with the Deluxe Models.

BUY ONLINE [WWW.EZLITECRUISER.COM](http://WWW.EZLITECRUISER.COM)

**Caregiver Mount** \$39.95

With this handy bracket, you can mount the joystick in the rear of your EZ Lite Cruiser, so that a caregiver can operate the device on behalf of the person sitting in it. A great addition for those who are unable to operate the Joystick themselves.

**Back Pack** \$69.95

A basic necessity for us all during travel, this Back Pack lets you store your battery, charger, accessories and other personal effects when transporting the device. Various styles available for your personal preference. See them online.

**Elevating Leg Rests** \$274.95

For users needing to elevate their legs during use of the device, these Adjustable Elevating Leg Rests make for a great addition. Easy to install mounting brackets are provided and stay attached to the device. These leg rests are easily removable.

**Basic Charger** \$89.95

This basic charger is included with the purchase of a new machine. If you need or want to have a spare, they are available for purchase. If you buy a second battery, we recommend having a second charger. Works in all countries up to 240 V input.

**Car Charger** \$99.95

Charge your battery in your car using the 12 V DC port using this Car Charger. Works in any vehicle that has a cigarette lighter port. Up-converts 12 V DC to 24 V DC to charge your battery as you go from place to place. Very handy!

**Speedy Charger** \$109.95

Now you can charge your battery in half the time with our 5 Amp Speedy Charger. Great addition for any user that heavily relies on their EZ Lite Cruiser. Works in voltages from 100 - 240 V AC input at 50/60 Hz. Automatically converts.

BUY ONLINE **WWW.EZLITECRUISER.COM**

Dual USB Charger \$39.95

Charge up to two USB devices right from your EZ Lite Cruiser battery source. Connects to the Joystick port or directly to the battery. Please note, using the battery of your device to charge USB devices will shorten your driving distance.

Travel Adapter \$29.95

Use this handy Travel Adapter to change the shape of the plug of your charger to fit into the outlet in any foreign country that uses different wall socket configurations. No need to change voltage, the battery charger provided does that automatically.

Umbrella Holder \$29.95

Easily mount a sunshade or umbrella with this very adjustable Umbrella Holder. One side attaches to the frame of the device and can be adjusted outward, upwards, downwards or to the side. Gripping clamp easily tightens with a thumb screw.

Push Handles \$69.95

These push handles help give you leverage when you need it, in situations where you need to tilt the device over a large obstacle. They also allow you to more easily push the device in the manual mode, instead of using just the frame to push it.

Safety Flag \$39.95

Lets face it, people are not mindful of their surroundings at sometimes & when in a powered mobility aid you want to be seen. This bright orange flag will help keep you safe by letting folks know 'hey watch out, here i come' when you cruise by.

Oxygen Tank Bag \$99.95

Our custom made oxygen tank bag is designed for larger sized cylinders of oxygen that can be brought with you while you ride around in the EZ Lite Cruiser. Smaller tanks may be better suited in our simple Back Pack accessory.

BUY ONLINE [WWW.EZLITECRUISER.COM](http://WWW.EZLITECRUISER.COM)

**Programming Kit (Joystick)** \$159.95

The Programming Kit that plugs into your joystick allows you to alter certain settings of the controller system (CPU) that controls the motor movements and how the chair performs. Alter the top speed, acceleration, left & right turning & more.

**10 Ah Battery** \$399.95

Our 10 Ah capacity battery is airline friendly and will get you up to 10 miles of driving on smooth, flat surfaces. A battery of your choice in size is provided when you buy a new EZ Lite Cruiser, & you can add a spare for more driving distance.

**15 Ah Battery** \$579.95

Our 15 Ah capacity battery is not airline friendly but will get you up to 15 miles of driving on smooth, flat surfaces. A battery of your choice in size is provided when you buy a new EZ Lite Cruiser, & you can add a spare for more driving distance.

**Dual Battery Connector** \$25.95

This Y splitter Dual Battery Connector cable allows you to connect two batteries together for double the driving distance! Note, you can only connect two batteries of the same capacity. Does not allow charging two batteries at the same time.

**Cane Holder** \$19.95

A simple but convenient way to mount your cane or walking stick to the EZ Lite Cruiser. It's a double sided rubber fastener that goes around the frame of the device on one side, and your cane or walking stick on the other.

**Folding Cane** \$49.95

This is a foldable cane that fits in a small enough size for many of the compartments of your EZ Lite Cruiser, or accessories. Handle end has a flashlight for convenience. Tip end has 3 pivoting tips for added support. Supports up to 250 lbs user.

### Grabz-All Tool

\$39.95

This gizmo is a grabbing tool that clenches anything within its reach with the push of a handle. Grabber end has a rubberized inside lining for a better hold of slippery items up to 4.5" wide. Handle end is very easy to use & can reach up to 32" away.

### Foot Rest Extender

\$79.95

The Standard Model has a very compact size but may be what you need for your needs. For some users, this Foot Rest Extender can help keep their feet at a more comfortable position. Works only on the Standard Model.

### Extender Kit (Deluxe)

\$49.95

This Foot Rest Extender Kit works on the Deluxe models. When customizing a new machine, you are given the option to install this at the factory. If you did not purchase it then, it can be added on later. Simple to install. & removable if necessary.

### Seat Belt (Premium)

\$39.95

This Premium Seat Belt Kit is made for our Deluxe Models and is fastened to the frame of the device for added support. Can be added to any Deluxe Model at any time. Sorry, this can not be used on the Standard Model.

### Clamp

\$24.95

This handy Clamp can be used to attach many objects to your EZ Lite Cruiser. It's simple and adjustable claw grips items such as canes, walking sticks, forearm crutches, flashlights, camera tripod, and more.

### Flash Light

\$29.95

Drive in poorly lit areas with this Flashlight. Has multiple modes: Solid light mode, Strobe mode, S.O.S. / Panic mode. Additionally, the Flashlight is extendable in length which allows for a focused beam of light. Paired best with our Clamp.

BUY ONLINE [WWW.EZLITECRUISER.COM](http://WWW.EZLITECRUISER.COM)

**Widening Kit (Deluxe)** \$40.00

This Widening Kit can change the Deluxe Regular models into a Deluxe Wide. Gives you an added 2"+ between the arm rests. Simple to install and can be removed at any time for the users needs. Works only on the Deluxe Regular or Slim Models.

**Poncho** \$39.95

This convenient and light weight cover prevents you the rider, as well as the fabric materials of the EZ Lite Cruiser and the onboard electronics, from getting wet. Very handy for users who live in areas where rainfall is more expected.

**Joystick Cover** \$29.95

Another convenient cover this time for the Joystick, to protect it from rain damage. Works great in combination with our poncho to keep the rider and electronics covered, while allowing you to see the joystick for better accuracy.

**Height Kit (Deluxe)** \$59.95

This height adjusting kit for the foot rest plate allows for shorter and/or taller users to get a better placement of their feet. Can add an additional one inch for taller users, and if cut down, can make it so shorter users get a comfortable fit.

**Foldable Lift** \$599.95

A truly unique invention and complement to your device is our foldable and portable lift. It weighs only 36 lbs but can lift up double it's weight! Lifts any EZ Lite Cruiser model up to 70 lbs. Easily breaks down and stores with your device.

# WARRANTY INFORMATION

**Every EZ Lite Cruiser, both Standard Model and Deluxe Models, come with our Worry Free, Industry Leading Warranty:**

10 Years on the Metal Parts of the Frame, 5 Years on each of the 2 Motors, 2 Years on the Battery, 2 Years on the Joystick, 2 Years on the Control System (CPU), & 3 Months on any Wearable Parts. Wearable Parts are anything that touches the user or the ground.

**The EZ Lite Cruiser Foldable Portable Lift also comes with a warranty:**

3 Years on the Frame, 1 Year on the Motor, 3 Months on Wearable Parts

The limited warranty on the wearable parts includes all things that touch the user including fabric parts such as the seat cushion & back cushion and their supporting straps, the arm rest pads, the joystick button pad, thumb screws and knobs, and anything that touches the ground such as front and rear wheels. Plastic decorative parts are not covered under any warranty. The battery charger is also included in the wearable parts as a 3 months warranty. Any accessories are also included in the wearable parts and covered for 3 months.

Any parts under warranty will be replaced and shipped to your door by USPS Priority Mail, or FedEx Express depending on availability.

Any service and labor fees, if applicable, to replace parts under warranty must be paid by the user. Due to it's modular design, most parts can be easily exchanged by the end user, a family member, relative or friend. However, it is always recommended you seek professional help for maintenance and service, to make sure the work is done properly.

**The warranty only covers NON-DELIBERATE OR NON-ACCIDENTAL Damage.**

Damaged caused by user negligence, accidental damages, intentional or not are not covered under the warranty. Products which have been subjected to negligence, abuse, improper storage, or handling, improper operation, any modifications, misuse are not covered by the warranty. Any damaged caused by improper usage, or normal wear and tear is not covered, and you should not use the Warranty Claim Form.

# RETURNS POLICY

**If you are not satisfied with your EZ Lite Cruiser and/or the Foldable and Portable Lift, we offer up to a 60 Day Money Back Guarantee!**

To qualify for a return please note the following:

Items must be returned (shipped) within the time frame allowed, from when you receive it. and Items must be clean, and put back in its original packaging.

**Option A - Use It Indoors Only.** This Option Lets You Try It Out For Size & See How It Drives. You Would Have to Return it Within 7 Days of Receiving It and We Will Cover the Return Shipping Cost & Waive the Restocking Fee. With Option A, There Is No Financial Risk To Try It! Just Return It In the Condition We Sent it to You. Risk Free Option ONLY Available for United States Customers.

**Option B - Use It Indoors AND Outdoors.** If You Need to Take It Outdoors to See How it Performs, And You Return it Within 14 Days of Receiving It, We Cover the Return Shipping Cost, But You Pay a 10% Restocking Fee. With Option B, Your Risk Is \$250 on Average. What You Pay in Restocking Depends on the Model & Configuration. Option ONLY Available for United States Customers.

**Option C - Use It Indoors AND Outdoors.** If You Need to Take It Outdoors to See How it Performs, And You Return it Within 60 Days of Receiving It, You Cover the Return Shipping Cost & Pay a 10% Restocking Fee. With Option C, Your Risk Is \$450 on Average. What You Pay in Restocking & Shipping Depends on the Model, Configuration & Your Location.

**With Our RISK FREE Trial Offer (Option A) There's ABSOLUTELY NO REASON For you Not to Try It.**

You do not need to select your return option when ordering. Every customer that meets the eligibility requirements for each option will have those options available, up until the time period for the particular option has ended. i.e. If you are past your Risk Free Trial (Offer A), you can still return it in the 14 days (Option B) or 60 days (Option C) return periods.
